ABRASIVE BELT GRINDING MACHINES :

These are available in Single ended and Double ended. These machines are suitable for general purpose grinding, polishing and deburring applications.

MODEL	HP/RPM	ABRASIVE BELT	RUBBER WHEEL
SB -50	1,2800	50 x 2000mm	Dia 200 x 50mm
DB-50	2,2800	50 x 2000mm	Dia 200 x 50mm

ABRASIVE BELT GRINDING MACHINE : 5R-50

This machine is specially developed for grinding of complicated shaped parts, inner radius, hand tools edges, castings, brass hardware, and turbine blades. The contact roll is extended forward for easy working. Various diameters of contact wheels can be provided.

MODEL	HP/RPM	ABRASIVE BELT	CONTACT WHEEL
5R -50	3, 1400	50 x 2000mm	Dia 25 to 100mm

ABRASIVE FLAT BELT LINISHING MACHINE : FB-200

The Abrasive Belt runs horizontally on a flat worktable. The machine is suitable for Grinding and Deburring of flat surfaces, press parts or punched parts, Deburring of cylinder heads, gearboxes and other sealing surfaces.

MODEL	HP/RPM	ABRASIVE BELT	RUBBER WHEEL
FB-200	2,1400	200 x 2000mm	Dia 150 x 200mm

◆ DOUBLE ENDED ABRASIVE BELT GRINDING MACHINE : DB-450

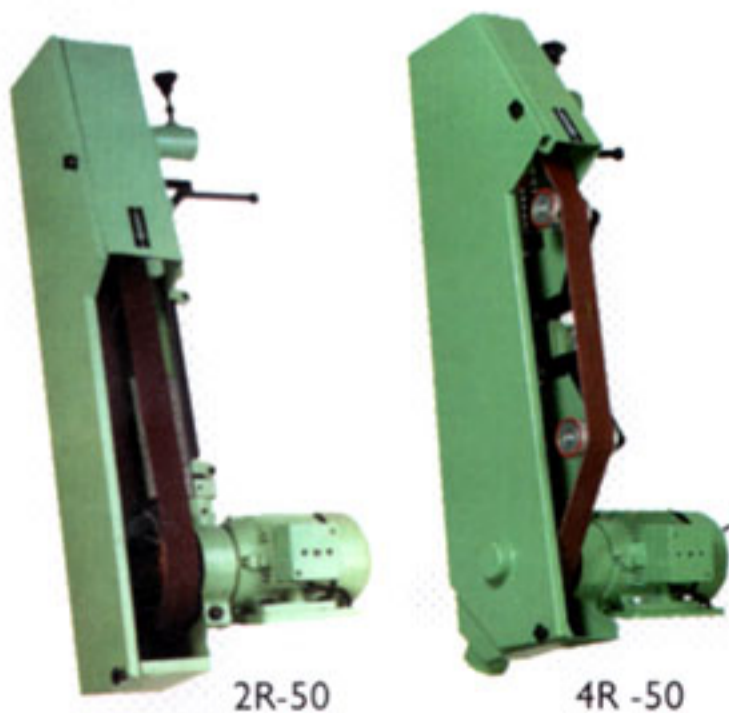

This is a Heavy Duty Machine with Independent Motors at each end. With Soft Contact wheels this machine is suitable for fine finishing applications.

MODEL	HP/RPM	ABRASIVE BELT	RUBBER WHEEL
DB - 450	3 (2nos.)	75 x 3500mm	Dia 450 x 75mm

DOUBLE ENDED ABRASIVE BELT ◆ POLISHING MACHINE : DB-442

This Machine is for polishing profiled components on the Free Belt and on the Rubber Wheel. It is with Independent Motors at each end and is suitable for polishing of Round Components, Profile Surfaces, Aluminum and Brass Fittings, Handle Bars, Door Handles.

MODEL	HP	ABRASIVE BELT	RUBBER WHEEL
DB- 442	3 (2nos.)	50 x 3500mm	Dia 250 x 50mm

2R-50

4R -50

◆ LATHE MOUNTED POLISHING MACHINES :

These attachments are specially developed for mounting on the Lathe Tool post. The 4R -50 attachment is suitable for polishing of smaller components on the free belt. In the 2R-50 it is possible to do Grinding on the Contact Wheel and also Polishing on the Free Belt.

MODEL	HP	ABRASIVE BELT	RUBBER WHEEL
4R -50	1, 2800	50 x 2000mm	Dia 100 x 50mm
2R -50	1, 2800	50 x 2000mm	Dia 200 x 50mm
